CYBERSECURITY AND DATA PROTECTION POLICY

At **C.F Strata Management** and **Wedd Realty** we are committed to the security and privacy of our customers' data. Our Cybersecurity & Data Protection Policy outlines the measures we take to safeguard sensitive information and maintain a resilient digital environment. We employ a comprehensive, multi-layered security strategy that includes encryption, secure network architecture, endpoint defense, and strict access controls—all protected by mandatory two-factor authentication (2FA) to prevent unauthorized access.

We continuously monitor our systems and adapt to the evolving threat landscape through real-time threat intelligence, regular vulnerability assessments, and ongoing system updates. Our employees are trained in cybersecurity best practices to ensure a consistent and company-wide culture of data protection. In alignment with industry standards and regulatory requirements, we enforce stringent data handling and audit procedures to ensure the confidentiality, integrity, and availability of all customer information. Whether data is stored, processed, or transmitted, it is secured through robust technical safeguards and procedural controls.

These proactive measures allow us to uphold the trust placed in us and ensure that our customers can interact with our services securely and confidently. Protecting customer data is not just a priority, it is a core part of who we are.
